Administrative Academy Workshop

#831 Data Driven Decision Making: Using A Data Dashboard

This workshop will develop administrator knowledge and skill on data driven decision making both at the district (or cooperative) and school (or program) level. We will use the "Using Right Data" model to learn what is the "right data" and how to "use it rightly." Equally important will be refining our leadership skills to develop an effective data culture in our district and schools to improve student learning. This workshop will result in a data integrated instructional improvement model with which school leaders can engage their faculties. **NOTE:** Participants are asked to bring samples of district level assessments and score reports and sample teacher/department made assessments and any accompanying analysis.

Date: February 23, 2012

Workshop Time: 8:30-3:00

Location: A.E.R.O. Center
7600 S. Mason Ave., Burbank, IL 60459
(Participants must park at Reavis H.S., enter on Austin & 77th St.)
(You must be registered for the workshop and have a picture ID.)
